### **DETAILED ACTION**

During a telephone conversation with Mr. Phillip Levy on 06/23/04, Applicant requests to send out the restriction instead of electing on the phone.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-53 and 66-84, drawn to a system for creating and maintaining a plurality of lists of items, classified in class 345, subclass 738.
- II. Claims 54-65, drawn to a system for monitoring a computer network, classified in class 709, subclass 224.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I and II is one invention dealing with network resource browsing and navigating and the other one dealing with error messages.
